The RFAI's resulting from errors on the paper filing of the October quarterly report have been addressed by the electronic submission of that same filing. The request related to the Pre-Primary filing are satisfied by the same filing.

***The RFAI FAQ states that a committee "should" amend a paper report in the same medium, however, FEC regulations indicate that committees over the \$50,000.00 threshold "must" file electronically. Therefore, our electronic filing of the amendment represents our best efforts to maintain compliance with rules requiring electronic disclosure.
